CLEAN UPGRADE

Scratch-Resistant   Easy-Clean   Long-Lasting

Smooth Surface   Stain Prevention   Prevent Cracking

Innovative smart and clean glaze
Integrated firing at 1280 ℃
Forming selfcleaning glaze,
Smooth, fine, mildew-proof, self-cleaning,
Keep ceramics clean and protect health

CERAMIC GLAZE UNDER MICROSCOPE

TRADITIONAL GLAZE

There are concave and convex dirt invisible to the naked eye, and mold is easy to hide in it, which is not easy to clean.

INTELLIGENT GLAZE

It is more delicate and smooth, without dirt hiding, and easy to clean.

SOFT-CLOSING SEAT COVER

Slow seat cover technology can reduce the noise, collision and breakage of the seat cover when it is closed

SEWER GLAZING

The inner surface of sewer is glazed so that the sewer is smooth and nowhere for dirt to hide, and no blocking anymore.

BIG PIPE HAS MORE MOMENTUM

The pipeline design with enlarged diameter, with new channels and high temperature treatment, the glaze reaches a fine and smooth texture, and is highly smooth, which can help the dirt to wash instantly and clean as new.

WATER CONSERVATION
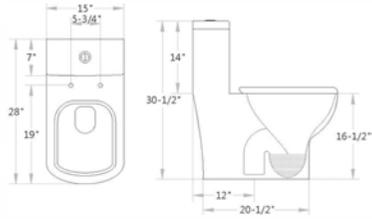

Save 2L per urination, Reduce water bills
