# DECK FLOORING

## ABOUT THE PRODUCT

Deck flooring made of plastic wood slats  
very high resistance to weathering and UV filter.

UV filter Polymer+Natural fibers blend.

Bamboo natural fiber 60% and engineered polymers 40% with UV  
with UV additives for intense high traffic outdoor use,  
the beauty of natural wood with the ultra high resistance of state-of-  
the-art polymers.

## ABOUT THE PRODUCT

WPC, or wood polymer composite, is a material commonly used in exterior applications. This material combines wood fibers with polymers to create a durable and versatile product. Here are some common characteristics and applications of WPC in exteriors

# TUBE WPC & PVC EXTERIOR INTERIOR

## ABOUT THE PRODUCT

WPC and PVC slats are a durable and resistant alternative to natural wood, made of wood-plastic composites. They are ideal for outdoor use due to their resistance to weathering, moisture and insects, and require little maintenance. Perfect for railings, banisters, fences and other outdoor projects.

COLLETION

MARBLE  
FUSIÓN

# Marble laminate PVC

## ABOUT THE PRODUCT

PVC Marble is a material that combines the properties of polyvinyl chloride (PVC) with a design that simulates the appearance of marble. It is a popular choice for interior cladding and decoration due to its durability, water resistance and easy maintenance. It also offers a more economical alternative to natural marble while retaining its aesthetic appearance.
